PREPARATORY ACADEMY

A Challenge Foundation  Academy

March 23, 2018

Parents of Rising 7th graders,

The North Carolina Health department has immunization requirements for school attendance. Your child must have one 1) booster dose of the Tetanus vaccine (Tetanus, Diphtheria, Pertussis) and one (1) dose of the Meningococcal conjugate vaccine prior to entry into the 7th grade.

The school must have an updated immunization records that shows proof that these were administered, prior to the start of the school year. Students without proof of immunizations are subject to a delayed start of school until proof is provided.

For a complete list of required [7th grade immunizations](#) or you can visit <http://www.immunize.nc.gov/schools/k-12.htm> . Please note that your child's primary physician is aware of what the state requires and will provide the necessary immunizations for school entry. Please provide Pine Springs Prep with a copy no later than August 20, 2018.

Thank You,

Melissa Kranack RN
